

Dear Resident,

Considering the announcement of recent cases of the Coronavirus in the United States, we wanted to inform you, our residents, of the steps Granite is taking to prepare.

We will continue to monitor the guidance being set forward by the Center for Disease Control, and World Health Organization.

We've communicated to our property teams on the precautionary measures they should take to stay healthy and to help ensure the health and safety of our residents. This includes taking preventive actions to help stop the spread of germs including:

- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then dispose of the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces using a disinfectant household cleaning spray or wipe.

Follow the CDC's recommendations for using a facemask.

- The CDC does not recommend that people who are well wear a facemask to protect themselves from respiratory diseases, including Coronavirus.
- Facemasks should be used by people who show symptoms of Coronavirus to help prevent the spread of the disease to others. The use of facemasks is also crucial for health workers and people who are taking care of someone in close settings (at home or in a health care facility).
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty.

For information about handwashing, [see CDC's Handwashing website](#).

For information specific to healthcare, [see CDC's Hand Hygiene in Healthcare Settings](#).

We will continue to follow the CDC and local government's recommendations regarding the Coronavirus and recommend visiting their websites for reputable information, including this [link](#).

If you experience these symptoms and believe you may be infected with coronavirus, please call your health care provider.

If you have any questions, please contact our office anytime.

Sincerely,

Granite Management
